1 cm

Colors:
light blue
white
black
green

Packaging:
boxes of 12
tiles, equalling
3 square meters
(includes
16 blocking clips
per sq. meter)

Permafloor® Plus is specifically designed for the flooring of terraces covered with water-resistant sheath, and it is ideal for pools perimeters, shower rooms, and in general for any water-sport related area.

The thick shape with rounded borders makes Permafloor Plus® a pleasant bare-feet walking experience.

It is made from a special modified vinylic compound that provides excellent resistance to atmospheric agents, considerable elasticity and guaranteed long-term durability.

The shape of the supporting pods has been especially designed to avoid creating holes in the sheath. Tiles are interlocked through special plastic clips.

As for all vinyl flooring, prolonged contact with tires or other rubber objects can cause indelible brown marks. Further, as adhesive is not used to fix tiles, forklifts and carts are not recommended. Beyond 50 sq. meters the use of expansion joints is mandatory.
